15/04/24 Meeting Minutes

Date

Week 9

15 Apr 2024

Participants

- @Farah Choudhury @Amaan Jahangir @Isha Singh @Nadine Sjahsam @Jacob Farrow
- Absent: Ewan Devlin, Mahad Adan (excused)

Agenda

- Progress Updates on Epics
- Discussion on Tasks and Work in Progress
- Planning for Next Steps

Discussions

Item	Notes
Progress Updates on Epics	- Each team member provided individual updates on the epics they were working on, highlighting the progress made since the last meeting. - Updates included tasks completed, work in progress, and any challenges encountered during implementation.
Discussion on Tasks and Work in Progress	- Team members discussed specific tasks and work in progress for each epic, focusing on key aspects such as: - SQL table/database linking: Progress on linking SQL tables to the backend for data retrieval and manipulation. - Mapping to different pages functionality: Implementation progress on mapping functionalities to different pages within the application. - Unit testing error handling: Status of unit testing and error handling mechanisms implemented to ensure robustness and reliability.
Planning for Next Steps	- Based on the updates and discussions, team members collaboratively planned the next steps for each epic. - Tasks were prioritized, and timelines were established to ensure timely completion of the remaining work. - Any dependencies or blockers were addressed, and strategies were devised to overcome them.

Action items

- Continue SQL table/database linking for dynamic processing for their assigned epic.
- Finalize mapping to different pages functionality and conduct thorough testing.
- Complete unit testing for error handling and address any identified issues.
